RIGHT HERE AT ST. GREGORY THE GREAT!**

Challenge Island is a one-of-a-kind enrichment program on the cutting edge of STEAM education. We introduce preschoolers to the wonders of science, the thrill of engineering and the joy of creative thinking. Students visit 'islands' where they work together in **STEAM Teams** creating, designing, building, learning and having a HUGE amount of fun! Each class is active, inter-active, exciting and totally hands-on and encourages the children to collaborate, communicate, think critically and build their creative skills. We introduce science concepts in a totally age-appropriate and child-friendly way. For example, when talking about gravity, children practice jumping to see if they can stay up in the air! We also explore friction, elasticity, transfer of energy and more in ways that children understand and see in action in their projects! **It's screen-free and imagination powered fun!**

Here are a few of the challenges from our island weekly adventures ...

- Just picture visiting **RAINFOREST ISLAND** & learning about the monkeys that live in the canopy layer with their adaptive prehensile tails and building a host of **SIMPLE MACHINE** playground toys to keep those monkeys happy high above the forest floor! And of course, we build the monkeys, too!
- Or the thrill of building **ROLLER COASTERS** while learning about gravity & friction! →
